

BRISBANE ENTERTAINMENT CENTRE
It All Happens Here!

Thank you, everyone at Enviro Floors for a job well done. Finished on time. It was a pleasure to have a project where experienced tradesman could answer all my questions without having to be passed on to a number of different people.

Approx 3 months ago I had to find a company that would be able to re-sand and polish 3500 m2 of sports flooring, with 27 game courts to be line marked. Looking for a new company to complete the project as I had a few unresolved issues with the previous company that did the floors.

After 3 months of researching a number of companies that said they could do the job but the downside was that it would take over 6 weeks to complete.

The other thing I was unhappy with was the type of coatings that some of these companies were using. We couldn't have any toxic products to be used inside the centre, as this would expose us to issues with work place health and safety and we could have duty of care issues also.

Enviro Floors were able to deal with all these matters.

Enviro Floors came in and got the job done no fuss no dust no smelly coatings and saved time on the project.

We would highly recommend Enviro Floors a very professional company, good to see Queensland company performing so well.

We wish Enviro Floors all the best in the future.

Thank you,

Bryan MacCarthy
Maintenance Manager
