Dear Sir,

RE: Excellent Customer Service

I recently had my floors polished in an investment property we were renovating at Windsor. As property developers, we had a very tight time frame on the project. We found all the staff at EnviroFloors extremely helpful with meeting our deadlines and ensuring that a quality job was completed on time.

Aside from the customer service, the floors look great. There was no lingering smell and the house was ready to open for inspection the next day.

Congratulations on a great product and a great team behind it.

Yours sincerely,

Megan Williams
